

Free from ethanol, benzene and aromatic hydrocarbons.

PRODUCT CODE: PROFU4

PRO FUEL 4

PRO FUEL 4 Ordinary gasoline contains ethanol, which is not moisture resistant. Pro Fuel 4 does not have the addition of ethanol, it is the perfect choice for feeding small engines that are exposed to corrosion.

PRO FUEL 4 is free of ethanol, benzene and aromatic hydrocarbons. These substances are found in ordinary fuel and are very hazardous to health. They can cause serious health problems such as cancer. PRO fuel does not absorb water, unlike ordinary fuel from a gas station. Water in gasoline causes corrosion of engine components.
